Creating social and cultural impact

**Solving real-world challenges**

- Archaeological and Cultural Heritage
- Chemistry
- Earth Science
- Environment
- Engineering
- Materials
- Energy
- Biology & Bio-Materials
- Medicine
- Physics
- Technical Development
- Earth Science

STFC’s large facilities enable research in many disciplines, including:

**Addressing global challenges**

- Awarded nearly £24 million up to 2018/19 through the Newton and GCRF funds aiming to further sustainable development in developing countries
- This has enabled UK researchers to reach over 30 different countries and has so far resulted in 60 new collaborations involving partners from the private, charitable and academic sector both from the UK and overseas

**Inspiring and Involving**

- Over 550,000 members of the public in 2018
- 54,476 school and further education students
- STFC gave nearly £1 million in funding for PE awards and fellowships in 2018/19
- We ran 411 events, which reached 36,580, including 8,861 pupils and we trained 276 teachers
